DIARY NOTES

DD/S

13 January 1966

1. I briefed the Executive Committee on the closing out of devised funding accounts which are being exposed to possible compromise through inquiries by David Wise.

2. Des FitzGerald stopped in and talked to me about the Security Office briefing of the DCI on the personnel and physical security program. Mr. FitzGerald did not wish any details of Jim Angleton's office to be included to which I fully agreed. Howard Osborn has responsibility for organizing the briefing which should be ready in the near future. Mr. FitzGerald advised he had one other idea on improvement of DD/P personnel security in mind and I asked that he brief me on it as I am interested in this program which has been developed through the years between the Office of Security and the CI Staff under Mr. Angleton.
